FESTIVAL PRESENTING
PARTNER

NOTE FROM MINISTER FOR TOURISM AND SPORT, THE HON. MICHAEL HEALY MP

It is my pleasure to welcome you to the Noosa Festival of Surfing which highlights the personality and uniqueness of Noosa. Noosa Festival of Surfing is supported by the Queensland Government through Round 22 of Tourism and Events Queensland's Queensland Destination Events Program, which strives to highlight the vital link between the wonderful events we host in our great state and the diverse destinations in which they take place. Events such as Noosa Festival of Surfing foster community pride, impart local culture with all who visit and make meaningful contributions to the local economy. Beyond the Surf Festival, there is so much to see, do and experience in Noosa. I encourage all visitors from far and wide to soak in all the delights of the Sunshine Coast and make the most of all the experiences unique to this special part of Queensland.

Congratulations to the organisers plus all those involved in working tirelessly to stage such a great event and for being part of the Queensland Destination Events Program.

6 SURFERS TO WATCH

1

JAYCE PIOLI THE DARK HORSE

His deadly combination of performance waveriding, old-school trim and sublime noseriding could easily prove to be a winning formula in 2024.

2

DALLAS ROGERS THE NEXT BIG THING

A calculated surfer with great finesse, he gives the ocean what she demands, surfing waves in a manner that best suits their size and power.

3

HIROKA YOSHIKAWA THE HAPPIEST SURFER

Her fervent passion and sheer joy in surfing as evident in competition as in on-shore solo sessions, making her as much of a pleasure to watch as she is to compete against.

4

AUGUSTO OLINTO THE QUIET VICTOR

Doing the unthinkable under the lip or dangling ten on a ripple, he has the ability to get the big scores when the conditions don't comply.

5

KAI ELLICE-FLINT THE PATIENT MASTER

A superb noserider and proficient all-rounder, Kai's style is one of calm composure and sure-footed poise; even his occasional falls seem to happen in slow-motion.

6

LEENA MUN THE KOREAN POWERHOUSE

Though talented in the art of logging, her favourite place is on more refined boards thrashing beach breaks, so if a change of location occurs, this could well be Leena's year.

SUSTAINABILITY

The Noosa Festival of Surfing is one of the leading major events in Australia when it comes to environmental and sustainability initiatives.

Our efforts are assessed under the Tourism Noosa Sustainable Event Criteria which aligns itself with GSTC (Global Sustainable Tourism Criteria) and managed by our Sustainability Partner (Ecovantage). All key stakeholders and especially our sponsors are chosen and choose to go out of their way to protect an environment that gives us, as surfers so much in return. But none of this could be achieved without the incredible efforts of our Recovery Angel Volunteers who single-handedly ensure our waste is minimised and diverted from landfill to the max every day of our festival.

In 2019, World Surfariis and The Noosa Malibu Club started recording and reducing their event carbon emissions. By 2021 we offset over 100% of the carbon emissions produced as a result of the 10-day event.

Our benchmarks in energy, water and waste have paved the way for other major events around Queensland and Australia to follow. We acknowledge the work of Noosa Council in its efforts to monitor and require sustainability management in all event applications to ensure minimal footprints of events in this pristine area and to Plastic Free Noosa's continued efforts to ban single use water bottles and plastics at events.
